WHEAT CLOSES HIGHER ON PROFESSIONAL BUYING.

CROP NEWS MAINLY BEAR-

Market Advances With a Jump, but High Prices Are Not Maintained.

After scoring a big advance in Saturday's market wheat eased off and closed with a net gain of %c a bu, for the Dec. ption. Though most of the domestic news option. Though most of the domestic news—was bearish, there were disquieting foreign rumors, and some of the professional
operators were reckless in their anxiety
to add to their already large lines. Recelpts here and at other receiving points
were heavy, and weather and crop conditions in the winter and spring belts were
generally favorable. Very little grain sold
at the high point, and a few minutes after
the quotation was established it was impossible to fill orders at that price.

Corn advanced in line with wheat.

Weather and crop advices were mildly
bullish, and frost was threatened in portions of the belt.

at \$1,000.

About 10 o'clock Saturday morning a cook, in spilling some hot grease, started a blaze which threatened to destroy the kitchen. Firemen extinguished the fiames without much trouble, but Mr. Faust estimated the damage at \$20.

At 4 o'clock vesterday morning flames were discovered again. This time they had been caused by an overheated flue. Guests at the Southern Hotel, ap part of which is above the restaurant, slept unaware that the flames were causing \$80 damage below them. Several, however, were awakened by the puffing of the engires, but a panic was averted.

An alarm was sent in from Broadway and Valentine street, but the flames had gained much headway when the fremen arrived, and a second alarm was turned in.

9400-LADIES' TOURIST COATS 33, 36 and 40 inch bust.

A fashionable tourist's coat is shown here developed in pale gray cloth, with machine stitching done in a darker shade of the same color. The yoke is shaped with shoulder seams and extends over the arms of form-fitted caps.

Full fronts and backs are shirred at the top and attached to the yoke, falling loosely in long graceful folds to the hem of the dress. The edges of the yoke are heavily machine stitched.

One-piece sieeves are shirred and applied on the yoke, which forms the upper portion of the sleeves. They have ample fullness and will not crush the dress sleeves worn beneath. At the lower edge they are gathered and finished with shallow cuffs that are also machine stitched.

Tourists' coats in this style are made of waterproof slik, brilliantine, covert, cheviot or light-weight cloth. Some have cuffs and pipings on the yoke of velvet or taffets.

To make the coat in the medium size will require five and one-half yards of material fifty-four inches wide. The pattern, No. 566, is cut in sizes for a 22, 25 and 60 inch bust measure.
